Before you start...	45
The Basics	45
The Top 10 Gotchas	47
Remember Rule Number 5	48

The Database Concept

49

Database vs Browser **49**

Why a database rather than a browser? 49

What's the difference between the Database, the Catalog and the Library? 50

Do I have to import my photos? Can't I just browse to view them? 50

Do I have to export my photos? Why can't I just save them? 50

Catalog Facts **51**

Is there a maximum number of photos that Lightroom can hold? 51

Is there a maximum number of photos before Lightroom's performance starts to degrade? 51

Is there a maximum file size that Lightroom can import? 51

Working with Catalogs **52**

What general maintenance will keep my catalogs in good shape? 52

Why do I have a few different files for my catalog? 52

Can I rename my catalog? 53

How do I create a new catalog and then switch between catalogs? 53

How do I set or change my default catalog? 54

How does Import from Catalog work? 55

How does Export from Catalog work? 56

Storing as Proprietary Raw vs. DNG	58
What is DNG?	58
Should I convert to DNG?	58
Do I lose quality when converting to DNG?	61
Should I convert other formats like JPEG or TIFF to DNG?	61
If I convert to DNG, can I convert back to the proprietary raw file format again?	62
Which preferences should I choose when converting to DNG?	62
How do I convert to DNG?	64
How do I update my embedded preview?	67
How do I change my embedded preview size?	67
I embedded the proprietary raw file - how do I extract it to use it?	67
I embedded the proprietary raw file - is there any way to remove it?	67
Single or Multiple Catalogs	68
Should I use one big catalog, or multiple smaller catalogs?	68
I have a small working catalog and a large searchable archive catalog - how do I transfer them from one catalog to another?	70
I seem to have 2 catalogs. I only use 1, so can I delete the other?	70
When I used ACR I only kept the XMP files archived - can't I just do that?	71
Can I search across multiple catalogs?	71
I did have multiple catalogs - how can I merge them into one?	72
How do I set default Catalog Settings to use for all new catalogs?	72

Catalog Corruption **73**

- How do catalogs become corrupted? 73
- How can I keep my catalogs healthy and prevent corruption? 73
- Lightroom says that my catalog is corrupted - can I fix it? 74

Backup **75**

- Does Lightroom back up the photos as well as the catalog? 75
- I back up photos using the Import dialog - isn't that enough? 75
- What else should I back up? 75
- I'm worried about keeping all changes in one catalog - are there any other options? 76
- How often should I back up my catalog? 77
- Where does Lightroom save the backups? 77
- How do I change the backup location? 77
- Should I turn on 'Test integrity' and 'Optimize catalog' each time I back up? 78
- I run my own backup system - do I have to let Lightroom run backups too? 78
- Is it safe to have Time Machine back up the catalog? 79
- Does the backup overwrite previous backups? 79
- Can I delete the oldest backups? 79
- I haven't got time to back up now - can I postpone the backup? 80
- Can I backup when I exit instead of when I start? 80
- Why does Lightroom say it's "unable to backup"? 80

Restoring Backups	81
If my catalog becomes corrupted, how do I restore a backup?	81
If my hard drive dies or I reinstall the OS, how do I restore a backup?	82
If I'm restoring from backups, does the catalog or the XMP data take priority?	83
Moving Lightroom... on the same computer	83
How do I move my catalog & photos to another hard drive?	83
How do I move only my catalog to another hard drive?	84
How do I move only my photos to another hard drive?	84
Can Lightroom reorganize my catalog into dated folders automatically?	86
Moving Lightroom... to a new computer	86
How do I move my catalog & photos to a new computer?	86
How do I move my catalog & photos from Windows to Mac or vice versa?	87
Multiple Machines	87
I need to work on my photos on my desktop and my laptop - what are my options?	87
I work on a single laptop and my photos are on an external hard drive - when I take my laptop out, but leave the external hard drive at home, can I continue working on the files?	88
I primarily work on my desktop, but I'd like to be able to temporarily transfer part of my catalog to my laptop and then merge the changes back later. Is that possible?	89
I like to upload into a catalog on my laptop when I'm out shooting and start editing - how can I move those files into my main desktop catalog when I return home, without losing the settings?	90

Why haven't my presets copied over with the catalog? 90

Can I synchronize two computers? 91

Networking 92

Can one catalog be opened simultaneously by several workstations across a network? 92

Is it possible to have the catalog stored on a Network Accessible Storage unit (NAS) but open it on a single machine? 92

Previews & Speed 93

Previews 93

Why do I have to create previews? Why can't I just look at the photos? 93

What is the difference between Minimal previews, Standard previews and 1:1 previews? 93

What size and quality should I set for Standard-Sized Previews? 95

When I choose Render 1:1 Previews from the Library menu, does it apply to the entire catalog or just the selected photos? 96

The previews folder is huge - can I delete it? 97

If I delete a photo, is the preview deleted too? 97

I've discarded 1:1 previews - why hasn't the file/folder size shrunk? 97

Can I move the previews onto another drive? 98

Do I have to back up my previews? 98

Lightroom appears to be creating Cache*.dat files in the Camera Raw Cache as well as its own previews - why? 98

Preview Problems **100**

Why do I just get grey boxes instead of previews? 100

Everything in Lightroom is a funny color, but the original photos look perfect in other programs, and the exported photos don't look like they do in Lightroom either. What could be wrong?
100

How do I change my monitor profile to check whether it's corrupted? 101

The preview in Library module is slightly different from the preview in Develop module - why is that? 103

Speed Tips **103**

How can I get Lightroom to import faster? 103

How can I speed up browsing in Library module? 104

How can I speed up moving files between folders? 105

How can I speed up browsing in Develop module? 105

Are there any other Lightroom tweaks to make it run faster? 107

Are there any hardware or operating system tweaks to make Lightroom faster? 108

Import 111

Shooting Raw, sRAW, JPEG or both **111**

Can I use Lightroom on JPEG files as well as raw files? 111

If I edit a JPEG in Lightroom, is it still non-destructive? 111

If I can use all of Lightroom's controls on JPEG files, why would I still want to shoot in my camera's raw file format? 112

I shot Raw+JPEG in camera - why have the JPEGs not imported? 113

If I shoot sRAW format, can Lightroom apply all the usual adjustments? 114

Initial Import 115

What can I do in the expanded Import dialog that I can't do in the compact Import dialog? 115

How do I switch between the compact and expanded Import dialog views? 116

How do I import multiple folders in one go? 116

How do I select only certain photos to import? 117

Can I see larger previews of the files before importing? 117

Why are some photos unavailable or dimmed in the Import dialog? 119

Can I set Lightroom to delete the photos from the memory card once they've uploaded? 119

What happens to the other files on a memory card, such as sound or video files? 119

Import Options 120

What's the difference between 'Add', 'Copy', 'Move', and 'Copy as DNG'? 120

I've chosen 'Copy' or 'Move' - how do I organize the photos into a folder structure that will suit me? 120

Why are the Move and Add options disabled when importing from a device? 121

Why are some of the Destination folders in italics? 122

What does 'Do not import suspected duplicates' do? 122

What does the 'Make a Second Copy' option do? 122

Can I change the folder naming for the import backups?	123
How do I rename the files while importing?	123
What Develop settings, metadata, keywords should I apply in the Import dialog?	123
How do I create Import presets, and what do they include?	124
Can I import CMYK images into Lightroom?	124
Tethered Shooting & Watched Folders	125
How do I set up Lightroom for Tethered Capture?	125
Why isn't my watched folder working?	127
Solving Import Problems	127
How do I stop Lightroom from launching or opening the Import dialog every time I insert a memory card?	127
I can't see thumbnails in the Import dialog, I just see grey squares. How do I fix it?	128
Lightroom can't find my camera to import the photos. How can I import?	129
Lightroom can't import the photos from my brand new camera - why?	129
Lightroom appears to be corrupting my photos - how do I stop it?	129
Lightroom is changing the colors of my photos... what could be happening?	130
Why can't I import my HDR image?	131
Import Error Messages	131
It says "The following photos will not be imported because they are already present in the catalog."	131

It says "Some import operations were not performed. The files appear to be unsupported or damaged." 132

It says "Some import operations were not performed. The files already exist in the catalog." What does this mean? 132

It says "Some import operations were not performed. The files are too big." 133

It says "Some import operations were not performed. The files could not be read. Please reopen the file and save with 'Maximize Compatibility' preference enabled." 133

It says "Some import operations were not performed. The files use an unsupported color mode." 134

Library Module 135

Appearance & View Options 135

How can I choose the information I see in the thumbnail cells? 135

What are Badges and why can't I see them on my photos? 136

I can see Badges in Grid view, but not in my Filmstrip. Where have they gone? 137

What do the different metadata icons on the thumbnails mean? 137

How do I turn off the overlay which says Loading... or Rendering...? 138

What is the difference between the solid white arrows and the opaque ones in Folders panel, Collections panel and Keyword List panel? 138

How do I zoom in on a photo quickly? 139

How do I change the zoom percentage? 139

Is it possible to change the fonts and other interface details? 139

Dual Displays / Dual Monitors	141
How do I use the new Dual Display setup?	141
Which views are available on the Secondary Display? How are they useful?	142
How can I make use of Dual Displays if I work on a single screen?	143
What does 'Show Second Monitor Preview' do?	143
How do I move the Library Filter bar to the Secondary Display?	144
Why does the Secondary Display switch from Grid to Loupe when I change the Main Screen to Grid?	144
Can I detach the panels and rearrange them?	144
Why do shortcuts and menu commands only apply to a single photo even though I have multiple photos selected on the Secondary Display Grid?	145
Folders	145
How do the folders in Lightroom's Folder panels relate to the folders on my hard drive?	145
What does the Volume Browser do?	146
I have a long list of folders - can I change it to show the folder hierarchy?	148
Why aren't there 'Add Parent Folder' and 'Promote Subfolders' options in my context-sensitive menu?	149
When I look at a parent folder in Grid view, I see the photos in the subfolders as well. Can I turn it off so I can only see the contents of the selected folder?	149
How does the Synchronize Folder command work?	150
Is there a way of seeing the photos and their duplicates so that I can sort through them?	151
How do I find out where a file is stored on my hard drive?	152

Missing Files **152**

Lightroom thinks my photos are missing - how do I fix it? 152

Where has the Missing Files collection gone? How do I find all of the missing files in my catalog now? 155

I've renamed the files outside of Lightroom and now Lightroom thinks they're missing. Is it possible to recover them? 155

I've deleted some renamed photos. I do backups but they have the original filenames, so Lightroom won't recognize them. Is it possible re-link them? 156

Selections **157**

How do I select multiple photos? 157

What's the difference between the selection shades of grey? 157

Why don't the rest of my photos deselect when I click on a single photo? 158

Is there a quick way of selecting all photos with a specific flag, color label or rating? 158

I've got multiple photos selected - why is my action only applying to a single photo? 158

Renaming **159**

How do I rename photos? 159

How do I pad the numbers to get Img001.jpg instead of Img1.jpg? 161

Can I have more than 5 digit sequence numbers? 162

Is it possible to revert to the original filename? 162

Deleting **163**

When I delete photos, am I deleting them from Lightroom only, or from the hard drive too? 163

Why can't I delete photos when I'm viewing a collection?	164
I'm deleting photos in Lightroom, set to send to Recycle Bin/Trash, so why isn't it deleting them?	164
It's taking forever to delete photos - should it really take this long?	165
I accidentally deleted my photos from my hard drive and I don't have backups! Is there any way of creating JPEGs from Lightroom's previews?	165
Rotating	166
I turned off auto rotate in the camera - how can I rotate photos easily?	166
My photos have imported incorrectly rotated and distorted - how do I fix it?	166
Rating & Labeling	167
Are there any shortcuts to make rating and labeling quicker?	167
I've flagged my photos, but the flags disappear when I view these photos in another folder or collection - why?	168
Why would I want flags to be local instead of global?	168
I gave my photos color labels in Lightroom - why can't I see them in Bridge?	169
I gave my photos different color labels in Lightroom - why are they all white in Bridge? I labelled my photos in Bridge - why isn't Lightroom showing my color labels?	169
Is it possible to view flag/rating/color labels status when in other modules?	170
Lightroom's not quick enough to do the initial culling on a large shoot - is there anything I can do to speed it up?	171
Keywording	171
How do I import my keywords from Bridge?	171

If I can import keywords from Bridge using a text file, does that mean I can create my keywords manually using a text file and then import them into Lightroom?	172
How many keywords can I have?	173
What does the plus symbol to the right of the keyword mean?	174
What do the minus symbol, check mark, and box to the left of the keyword arrow mean?	174
What is the small arrow after the selected keyword?	174
How do I change my long list of keywords into a hierarchy? Or change the existing hierarchy?	175
How can I keep certain keywords at the top of the list?	176
Is there a quick way of finding a particular keyword in my long list?	176
Is there any easier way to apply lots of keywords in one go, other than typing or dragging them all?	176
I mistyped a keyword and now Lightroom keeps suggesting it - how can I clear the autofill?	177
I use multiple catalogs, but I'd like to keep my keyword list identical and current across all of the catalogs - is there an easy way?	177

Painter Tool **178**

What is the Painter tool useful for?	178
--------------------------------------	-----

Editing the Capture Time **179**

The time on my camera was incorrect - how do I change it?	179
What do the different options in the Edit Capture Time dialog do?	182
How do I sync the times on two or more cameras?	182

Viewing & Editing Metadata	183
How do I add my copyright information to the metadata?	183
How do I add metadata to multiple photos at once?	183
How do I create a Metadata preset?	184
How do I select which metadata to view in the Metadata panel?	185
I renamed my photos within Lightroom - is it possible to see the original filename without renaming it?	185
Why can't I see the file size in the Metadata panel?	185
What's this WAV file in the Metadata panel?	186
Why do some files say CR2+JPEG and some just say CR2?	186
Some of my lenses are listed twice in the Metadata filters, for example 24.0-105.0 mm and also as EF24-105 IS USM. Why?	186
Why is the new Comments panel unavailable?	187
Virtual Copies	187
Why would I want to use virtual copies?	187
I've just created a virtual copy, but an empty screen appears with "no photo selected" and no copy is made - what's wrong?	187
Can I rename my virtual copies?	188
Stacking	189
Why are the stacking menu options disabled?	189
How do I move a photo to the top of the stack?	189

I've moved raw photos and their resulting JPEGs into the same folder, and I'd like to Auto-Stack just like they would if they imported as Raw+JPEG together. Is it possible? 190

When I create a virtual copy, it should automatically stack them, but it doesn't - why not? 190

Sorting, Filtering & Finding Photos **191**

Can I set a default filter or sort order regardless of folder? 191

How do I choose a different sort order? 191

Can I reverse my current sort order? 191

Why can't I drag and drop into a custom sort order or 'User Order'? 192

Is it possible to sort by camera? 192

How do I sort my entire catalog from earliest to latest or vice versa, regardless of which folders the photos are in? 193

How do I filter my photos to show photos fitting certain criteria? 193

What does the lock icon in the Filter bar do? 195

How do I filter my photos to show... just one flag/color label/rating? 195

How do I filter my photos to show... photos with no color label? 196

How can I use the Text filters to do AND or OR filters? 196

How do I change the Metadata filter columns? 197

How do I select multiple options within the Metadata filter columns? 198

Can I combine Text filters, Attribute filters, and Metadata filters? 199

How do I search for a specific filename? 199

How can I view all of the photos tagged with a specific keyword or keyword combination? 200

Is it possible to display all of the photos in a catalog that are not already keyworded? 200

Can I save the filters I use regularly as presets?	200
Can I delete the filter preset I created accidentally?	201
Collections	201
How are Collections different from Folders?	201
What are the different icons for Collections?	202
What is the Quick Collection?	202
Is there a shortcut key to add to a collection?	203
Can I add to a collection from another module?	203
What are Smart Collections?	204
How do I transfer Smart Collection criteria between catalogs?	205
Can I have a hierarchy of collections?	205
Why won't it delete the photo?	206
Is there any way to tell which collections a photo is in?	206
Is there an easy way to see which photos in a catalog do not belong to any collection?	206
Publish Services	207
What is Publish Services?	207
Why is Flickr the only website - where's my favorite photo sharing website?	207
How do I set up my Publish Services accounts?	208
Can I divide my images into different sets?	209
How do I upload to Flickr?	210
How do I update Flickr with my changes?	210

I didn't mean to remove a photo from a photoset - how do I restore it?	210
Can I choose the size of the images to upload?	211
What can I use the Hard Drive option for?	211
Can I have more than one Flickr account connected to my catalog?	211
Can I have the same Flickr account connected to multiple catalogs?	212
What are the limitations of the free vs. pro Flickr accounts?	212
Does it automatically publish changes I make to my photos?	212
How do I stop it uploading a particular version of a photo?	213
How do I control which keywords are visible on Flickr?	213
How do I remove photos from my Lightroom catalog without removing them for Flickr?	213
Can I use Export as Catalog to transfer my Publish Collections between catalogs?	214
How do I disconnect Lightroom from my Flickr account?	214
Why is there a question mark on my Flickr service?	214
Quick Develop	215
Why is the Quick Develop panel so useful?	215
Can I adjust Sharpening or Saturation using Quick Develop?	215
Why am I missing some Quick Develop buttons?	216

Develop Module	217
----------------	-----

Working with Sliders **217**

The slider movements are too coarse - how can I adjust them? 217

How do I apply Auto settings to individual sliders? 219

Adjusting Multiple Photos **221**

How do I copy or synchronize my settings with other photos? 221

Why won't my white balance sync? 223

What does 'Match Total Exposure' in the Settings menu do? 223

Can I make relative adjustments, for example, brighten all selected photos by 1 stop? 224

Before / After Views **224**

Can I toggle a Before / After view, like the Preview checkbox in ACR? 224

Can I see a Before / After view side-by-side? 225

Can I change the 'Before' state to something other than the Import state? 225

Can I turn off the effect of a whole panel's settings, to see the preview with and without those settings? 226

File Information & Panel Views **226**

Is it possible to see camera setting information while in Develop module, rather than constantly switching back to the Metadata panel? 226

Histogram & RGB Values **227**

Why is there a warning triangle in the Histogram panel?	227
Why does the Histogram look different when I open the exported sRGB photo in Photoshop?	
Why are my highlights clipping in Photoshop but not in Lightroom?	228
Can I see RGB values as I hover over the photo?	230
Can I change the RGB values from percentages to a normal 0-255 scale?	230
Is it possible to see clipping warnings?	230

Presets **231**

How do I install Develop presets?	231
How do I create my own Develop Presets?	231
How can I organize my presets into folders or groups?	233
How do I rename Develop presets?	233
How do I remove the default Develop presets?	233
How do I uninstall Develop presets?	234
Where does Lightroom store presets? Why are they not in the default location?	234
Where can I download Develop presets?	234
How do I apply a preset to multiple photos in one go?	235
Can I apply multiple presets to the same photo, layering the effects?	235
I have some Develop presets that I use in ACR in CS4 - can I use them in Lightroom?	236
Why do my presets look wrong when used on JPEG/TIFF/PSD files, even though they work on raw files?	236
Is there a way to add a keyboard shortcut to a preset?	236

Defaults	237
Why would I change the default settings instead of using a preset?	237
How do I change the default settings?	237
Why would I want different defaults for each ISO and serial number combination?	238
Does changing the default settings in Lightroom affect ACR?	239
Why don't all of the sliders default to 0?	239
Snapshots	239
When would I use a snapshot instead of a virtual copy?	239
History & Reset	240
How do I reset a single slider to its default setting?	240
How do I reset a panel to its default setting?	240
How do I reset a photo back to default settings?	241
How do I reset multiple photos back to default settings? The Reset in Develop only works on one photo?	241
If I don't like the last adjustment I made, can I just undo that step, rather than using Reset?	241
Can I undo multiple steps?	242
How long do the adjustments stay in the History panel?	243
Is the history saved in a sidecar XMP file?	243
White Balance	243
Where should I be clicking with the White Balance Eyedropper?	243

The White Balance Eyedropper disappears every time I click anything - how do I keep it turned on? 244

Why don't the Temp and Tint sliders have the proper white balance scale when I'm working on JPEGs? 244

Where have the other White Balance presets gone, such as Cloudy and Flash? 244

Why is Lightroom showing different Kelvin values than I set in my camera custom white balance? 245

Basic Adjustments & Tone Curves **245**

What's the difference between Exposure and Brightness? 245

There are some hot pixels on my sensor in other programs, but I can't see them in Lightroom. Where have they gone? 246

Fill Light drops the contrast too far - is there an easy solution? 246

What's the difference between Vibrance and Saturation? 246

What does the Clarity slider do? 246

I want to use a Point Curve, but only Parametric Curves are available in Lightroom. Is it possible? 248

What do the three triangular sliders docked at the base of the Tone Curve display do? 248

Sharpening & Noise Reduction **249**

I've turned sharpening right up to the maximum, but it doesn't seem to be doing anything - why not? 249

Why isn't Lightroom's Develop module sharpening very strong? 250

Why can't I view sharpening in Fit to Screen mode? 250

How do the sharpening sliders interact? 251

Why can't I access the luminance noise reduction slider?	252
When would I use the Color, Edge Detail and Contrast sliders?	252
Why are my noise reduction presets so much stronger than before?	253
Lens Corrections & Effects	253
Why doesn't the Lens Correction Vignette adjust to the Crop boundaries?	253
What's the difference between Highlight Priority and Color Priority?	253
Why is the Vignette Style drop-down menu unavailable?	254
How do the Post-Crop Vignette sliders interact?	254
How do the Grain sliders interact?	256
Why does my Grain not always look exactly the same in the exported file as in Develop?	257
TAT tool (Targeted Adjustment Tool)	257
How do I use the TAT tool?	257
What can the TAT tool be used for?	258
How do I turn off the TAT tool when I've finished using it?	259
Cropping	259
Where did the Crop options go?	259
Why does the crop go in the wrong direction when I try and move the grid around?	259
How do I crop a vertical portion from a horizontal photo?	260
How can I change the default crop ratio?	260
How do I set a custom crop aspect ratio?	261
How do I delete a custom crop aspect ratio?	261

How do I set my crop grid back to thirds or bring the Crop Overlay back when it goes missing?
261

Is it possible to change the Crop Overlay color? 262

How do I straighten a photo? 262

Can a crop be saved in a preset? 262

Is there a way to see what the new pixel dimensions are (without interpolation) of a cropped photo before it's exported? 263

Red Eye Reduction Tool 263

How do I work the Red-Eye Reduction tool? 263

Lightroom's Red Eye Reduction tool can't lock on to the red eye - is there anything I can do to help it? 263

Why doesn't the Red Eye Reduction tool work properly on my dog's red eye? 264

Spot Removal - Clone & Heal Tools 264

How do I adjust the cursor/brush size? 264

How do I adjust the size of an existing spot? 264

How do I adjust the opacity of an existing spot? 265

How do I move an existing spot? 265

How do I delete a spot? 265

Can I copy or synchronize the clone/heal spots? 265

Local Adjustments - Graduated Filter & Adjustment Brush 266

How are the Local Adjustments different from Lightroom's other controls? 266

What effects are available in the Local Adjustments?	266
Why would I use the Graduated Filter & Adjustment Brush rather than editing a photo in Photoshop?	267
What does the Amount slider do?	267
How do I create a new brush mask?	269
What do Size and Feather do?	269
What's the difference between Flow & Density?	270
Is the Adjustment Brush pressure sensitive when used with a graphics pen tablet?	271
What does Auto Mask do?	271
How can I tell if I'm applying a color tint when using the Adjustment Brush?	272
If I apply sharpening using the Adjustment brush, where do I adjust the radius, detail and masking?	272
How do I reselect an existing mask?	272
Where have my mask pins gone?	272
How do I add to an existing brushed mask?	273
How do I erase from an existing brushed mask?	273
How can I tell whether I'm creating a new mask or editing an existing mask?	273
How do I create a new gradient mask?	274
How do I adjust an existing gradient?	274
How do I show the mask I've created?	275
Can I change the color of the mask overlay?	275
Can I fade the effect of an existing mask?	275
Can I layer the effect of multiple masks?	275

Can I invert the mask?	275
Can I synchronize my settings with other photos?	276
Why are there speckles in the brushed area?	276

Calibration **276**

I have old calibration settings in ACR which I'd like to use in Lightroom. How do I import them?	276
The ACR version number in the Calibration section is an old version - how do I update it?	277
Why does the profile drop-down list just say Embedded?	277

Raw File Rendering **277**

What is the difference between the old and new process versions?	277
Why do my photos change color? When the first preview appears, it looks just like it did on the camera, and then that disappears and it applies other settings. How do I turn that off?	278
I set my camera to black and white. Why is Lightroom changing them back to color?	279
How do other programs like iView, PhotoMechanic, Apple's Preview, Windows Explorer, Breezebrower etc. get it right?	279

Profiles & styles **280**

What do the new profiles do?	280
How do I install the profiles?	280
How do I use the profiles?	280
Which are the profiles for my camera?	281
Why does my Nikon D300 have D2X profiles?	281

DNG Profile Editor	281
What's the purpose of the DNG Profile Editor?	281
Why is this DNG Profile Editor better than the Calibration sliders?	283
Can I use the profiles on proprietary raw files, not just DNG?	283
Why doesn't it use ICC profiles?	283
Where do I download the DNG Profile Editor?	284
How do I use the DNG Profile Editor? It looks complicated!	284

XMP & ACR Compatibility 287

XMP	287
What is XMP?	287
How do XMP files relate to the catalog?	287
Why would I want these settings written to XMP?	288
Which data is not stored in XMP?	288
Where does Lightroom store the XMP sidecar files?	288
Where are the XMP files for my JPEG/TIFF/PSD/DNG files?	288
How do I write settings to XMP?	289
Should I turn on 'Automatically write changes into XMP'?	289
What's the difference between 'Write Metadata to Files' and 'Update DNG Preview & Metadata'?	290

Should I check or uncheck "Include Develop settings in metadata inside JPEG, TIFF, and PSD files"?

290

Can I view the content of my XMP sidecar files?

291

XMP has been updated on another program or computer. Why don't the changes show in Lightroom?

291

ACR **292**

What is ACR?

292

If I use ACR to convert, having created XMP files, will the result be identical to Lightroom?

293

Which ACR version do I need for the settings to be fully compatible?

293

Errors **294**

Lightroom says it can't write to XMP - how do I fix it?

294

I deleted the XMP sidecar files and now Lightroom won't write new ones - how do I force it to write them?

294

Export & Editing in Other Programs 295

Editing in Other Programs **295**

What's the difference between Export and Edit in...?

295

How do I change my Edit in... file settings?

296

Can I have more than two External Editors?

296

What do the new options in the Edit in... menu do?

297

Why can't I access the new options in the Edit in... menu?	298
Can I open a raw file directly into ACR or Photoshop without creating an interim file?	298
I'd prefer to let Bridge run the conversion to JPEG using Image Processor. Is it possible?	300
Why is Bridge not seeing the raw adjustments I've made in Lightroom?	300
File Type	301
What's the equivalent of a JPEG quality...	301
How do I set Lightroom to a JPEG level 0-12 so that Photoshop doesn't ask me every time I save?	301
If a photo is imported as a JPEG, and it's not edited in any way, is what I am exporting identical to what I imported?	301
In the Edit in... options, should I choose TIFF or PSD?	302
Why won't Photoshop allow me to save my Lightroom file as a JPEG?	302
Should I choose 8-bit or 16-bit?	303
I am a high volume photographer (weddings etc.) - do I HAVE to convert to PSD or TIFF for light retouching, or can I use JPEG?	304
Color Space	306
Why do my photos look different in Photoshop?	306
Why do my photographs look different in Windows Explorer or on the Web?	309
Can I export with a custom ICC profile?	309
Which color space should I use?	310

Sizing & Resolution

311

- What's the difference between Width & Height, Dimensions, Longest Edge & Shortest Edge? 311
- When I enter 4x6 as my output size, why do the vertical photos become 4x6 but the horizontal photos become 2.5x4? 313
- What does the 'Don't Enlarge' checkbox do? 313
- What PPI setting should I enter in the Export dialog? 313
- I set the export PPI to 300 - why is it 72ppi when I open it in Photoshop? 314
- How do I change the PPI setting for Edit in Photoshop? 315
- When I crop to 8x10 in Lightroom and then open in Photoshop, why is it not 8"x10"? 316
- Is it better to upsize in Lightroom or in Photoshop? 316
- Can I resize images in Lightroom without exporting? 316

Save Locations

317

- Can I set Lightroom to automatically export back to the same folder as the original, or a subfolder of the original folder? 317
- Why is the 'Add to Stack' checkbox unavailable? 317
- Can I set Lightroom to overwrite the original when exporting? 317
- How do I change the filename while exporting? 318
- Can I stop Lightroom asking me what to do when it finds an existing file with the same name? 318

Export Sharpening

319

- Can you 'Apply sharpening to preview photos only' like you can in ACR? 319
- Why does the Export Sharpening only have a few options? How can I control it? 319

Which Export Sharpening setting applies more sharpening - screen, matte or glossy?	320
Export Actions	321
Can I set Lightroom to automatically re-import the exported files?	321
How do I get Lightroom to attach the exported files to an email?	321
Can I run a Photoshop Action from Lightroom?	323
The droplet runs, but it doesn't save - what have I done wrong?	325
The droplet runs, but it keeps asking what JPEG compression to use - what have I done wrong?	326
The droplet doesn't run at all - why not?	326
The droplet only works on some of the photos and then stops - what's wrong?	326
In my droplet I used a Save for Web instead of a standard Save As - why won't it overwrite the original file?	327
Copyright & Watermarking	328
How do I create a basic text watermark?	328
How do I create a basic graphical watermark?	329
What file formats can I use for the graphical watermark?	329
Where can I use the watermark?	330
Are the watermarks intelligent for vertical and horizontal images?	330
What is 'Simple Copyright Watermark' in the watermark menu?	331
How do I enter the details for the copyright watermark?	331
Can I add more complex watermarks, such as text and a graphic?	331

Plug-ins **332**

What Plug-ins are currently available?	332
Will my Plug-ins work in Lightroom 3 beta?	333
How do I install Export Plug-ins?	333
Why can't I remove this Export Plug-in?	334
How do I use Export Plug-ins?	334

Other Export Questions **335**

Why does Lightroom move my Edit in... photo to the end of the sort order?	335
Can I save my Export Settings as a Preset?	335
Do I have to use the Export dialog every time I export?	336
Do I have to wait for Lightroom to finish updating the previews before I can export?	336
Why is Lightroom flattening my layered file?	336
Can I strip the metadata from my files, like Save for Web in Photoshop?	337

Export Troubleshooting **337**

Why can't CS2 save as JPEG when I've used Local Adjustments on the photo?	337
It gives an error message - "Some export operations were not performed. File does not exist." What went wrong?	339
The files appear in the export folder and then disappear again. Why is Lightroom deleting them?	340
Lightroom can't find Photoshop to use Edit in Photoshop - how do I fix it?	340

Styles & Settings **341**

How do I save my settings as a template for use on other photos?	341
Can I save my settings for a specific slideshow?	342
Can I add Intro and Ending slides?	342
How do I add captions to the slides?	342
Can I advance the slides manually, but still have them fade from one to the next?	343
Can I rate photos while a slideshow is running?	343
How do I make the slideshow display on my second screen?	343

Music **344**

Which music formats can Lightroom play?	344
How do I change the music track?	344
Why can't Lightroom find my iTunes playlists on my Mac?	344
tHow do I play multiple different music tracks during my slideshow?	344
How do I adjust the slide timings to fit the length of the music track?	345

Export **345**

Can I export my slideshow to run in a DVD player?	345
Can I export my slideshow for viewing on the web?	346
Can I export the slideshow with the music?	346

Where has the 'Export to JPEG' option gone? 346

I exported to PDF, but it doesn't automatically start the slideshow when I open it. Why not? 346

Errors 347

Why does it get part way through the slideshow and then start back at the beginning? 347

Everything appears to be running correctly, then the screen just goes plain grey or black when I try to running the slideshow. 348

Print Module 349

Single IMAGE/Contact Sheet 349

What's the difference between Contact Sheet, Picture Package and Custom Package? 349

How can I change the order of contact sheet photos? 349

Is it possible to add extra metadata onto the contact sheet, such as filenames, keywords, captions? 350

How do I set up a borderless print? 350

Picture Package 350

How do I use Picture Package? 350

Custom Package 351

How do I create a Custom Package? 351

What's a pinned or anchored cell? 351

How do I replace a photo in an existing cell?	352
How can I stop the photos being cropped by the cells?	352
How do I see the cell size?	352
How do I rotate a photo within a cell?	353
How do I move a photo within a cell?	353
How do I scroll through custom package pages?	353
Styles & Settings	354
How do I put the filenames and a copyright watermark on my photos?	354
Is it possible to change the background color?	355
How can I overlay a graphic such as a border onto my print?	355
With 1 photo on a sheet, I can place the Identity Plate anywhere on the photo. Is that possible for multiple photos?	356
I have the Rulers and Grid checked in the Rulers, Grid & Guides panel - why can't I see them?	356
How can I save my Print settings for later?	357
Printing	358
Why do Page Setup, Print Settings and Print buttons show the same dialog?	358
Which Print Sharpening option do I choose?	358
How do I set up my printer to match the preview I see on screen?	358
How do I print to a file such as a JPEG to send to my lab?	361
Why are Lightroom's prints too dark?	362
How do I get Lightroom to see my custom print profile?	362

Why does my custom ICC printer profile not show in Lightroom's list of profiles? 362

Web Module 363

Styles & Settings 363

How can I change a web gallery I've already created? 363

How can I save certain settings to a default gallery template, such as identity plates and color settings? 363

The default flash gallery appears to be capped at 500 photos, but I need to include more - how can I change the default? 364

Is it possible to add music to the galleries? 365

When using some third party galleries, the panels are clipped - can they be resized? 366

Uploading 366

How do I upload my gallery? 366

Why doesn't the FTP upload work - it says "Remote Disc Error"? 368

Can I have multiple galleries on my website? 368

I changed an existing gallery - why hasn't it changed on the website? 368

Why are my FTP settings not saved in the Web Templates? 368

Why do my galleries show stray white pixels on some photos? 369

Additional Galleries 369

Where can I download additional web galleries? 369

How do I install new web galleries? 370

General Troubleshooting 371

Troubleshooting Steps 371

I have a problem with Lightroom - are there any troubleshooting steps I can try? 371

What is deleted when I delete my Preferences file? 372

Interface & Toolbar 373

My toolbar's disappeared - where's it gone? 373

How do I change the tools that are shown in the toolbar? 373

Where's the Close Window button gone? 373

It's all gone black! How do I change the view back to normal? 373

Where have my panels gone? 374

Can I change the panel auto hide options? 374

Identity Plates 374

How do I create Identity Plates? 374

Where has my Identity Plate gone? 375

Error Messages 376

I installed Lightroom, but it says "An error occurred while attempting to change modules". How do I fix it? 376

There's a question mark in the corner of my thumbnail cell, and when I try to open the photo in Develop module it says "The file cannot be opened". Why not? 376

I tried to open my catalog but it says "The Lightroom Catalog at *** cannot be used because the folder does not allow files to be created within it." How do I open my catalog? 376

It says "There was an error working with the photo" or an exclamation mark in the corner of the thumbnail and a small fuzzy preview. What's wrong? 377

When I use the Browse dialog to locate a folder, the Windows Live Login dialog pops up. If I don't log in, Lightroom stops responding and I have to restart. How can I stop this? 378

Useful Information 379

Preferences & Settings 379

Lightroom Preferences are... 379

Lightroom Catalog Settings are... 379

Photoshop Preferences are... 379

Photoshop Color Settings are... 380

Default File Locations 380

The default location of the Lightroom catalog is... 380

The default location of the Preferences is... 380

The default location of the Presets is... 381

The default location of all of the Camera Raw Cache is... 382

The default location of the Adobe Camera Raw Profiles is... 382

Your custom Camera Raw Profiles can also be installed to the User folders...	382
Hidden Files	383
How do I show hidden files?	383
64-bit	384
I've heard Lightroom is now 64-bit software. How is that beneficial?	384
How do I install the 64-bit version?	384
Lightroom isn't certified for XP x64 - does that mean it won't run?	384
My Mac version doesn't have an 'Open as 32-bit' checkbox. Why not?	385
How can I check whether I'm running the 32-bit or 64-bit version?	385
Installing, Upgrading & Downgrading	386
How do I find out whether my new camera is supported yet?	386
How do I update Lightroom with the latest version of ACR?	386
How do I upgrade?	386
How do I downgrade to an earlier Lightroom dot release in the case of problems?	387
Which catalog versions will upgrade to 3.0?	387
How do I upgrade my catalog from version 2 to version 3?	388
How do I check which version I'm currently running?	388
If I install the 3.0 beta, will it overwrite my current 1.x or 2.x version?	388
Can I delete my previous installations?	388

Licensing Information **389**

I'm switching from PC to Mac - how do I switch my Lightroom license? 389

How many machines can I install Lightroom on? 389

How do I deactivate Lightroom to move it to another machine? 389

Final Words... **390**

Where else can I go to find solutions to my problems that aren't covered here? 390

I've got a great idea, or I've found a repeatable bug - how do I tell Adobe? 390
